PROJECT GOALS

- City must meet the requirements and schedule set forth by the Statewide Park Development and Community Revitalization Program (SPP) grant.
- City desires to respect the community engagement conducted during the SPP Grant application in the design and construction of the skatepark and continue to facilitate public outreach with the community during the design process.
- City wants to encourage design and construction creativity within the limits of the Project Budget and Schedule. The Design-Build Team shall provide the optimal design and aesthetics in accordance with the RFP program and performance requirements.
- City desires an aesthetically attractive, functional, cost effective and practical Project. The aesthetics of the Project are constrained by the existing improvements. The design of the Project shall be guided by the existing improvements and foreseeable environmental context.
- Renovate an existing 3,200 sq ft skatebowl. Construct a new adjacent 22,000 sq ft skatepark, new infrastructure to improve access to skatepark, new landscaping throughout the skatepark, new public art, and new lighting throughout the skatepark.
